

Calming Complex, Toothpaste and Roll-on deodorant for bee stings

Description

What's behind these products that makes them effective after the redness and itchy results from insect bites? Bee stings? Mosquitoes? Wasps?

When the reaction is severe, see a doctor immediately. The after effects can be soothed using these Shaklee products.

Enfuselle Calming Complex designed by Shaklee's scientists for sooth the skin as part of a complete anti-aging treatment system. When used as directed:

- Natural, gentle beta glucan creates a soothing barrier of protection against the environment
- Refreshes and calms the skin while minimizing the appearance of fine lines
- Significantly improves skin smoothness within 1 month

- • 145% decrease in the appearance of fine lines in 28 days
- 150% decrease in the appearance of wrinkles in 28 days
- Significantly improves the skin's ability to retain moisture
- Hypoallergenic

...Remember, Calming Complex is "calming and soothing" to the skin and it also gives deep

hydration. Both oily and dry skin will benefit from Calming Complex — it has a "balancing" effect, leaving the skin neither oily or dry – just smooth and soft.

Calming Complex is a comforting, skin-smoothing, hypoallergenic formula that gives you the protective and soothing benefits of beta glucan, for a quick recovery from environmental stress.

It's the perfect "after" product – after sunburn, after skiing, after airplane travel, after hot/cold shifts – after anything that makes your skin irritated and craving for comfort.

Paraben free.

Desert Wind Roll-on antiperspirant

Gentle, long-lasting protection against wetness and odors is the hallmark of this fresh-scented roll-on. Its non-sting formula contains soothing allantoin for a smooth, comfortable

feeling.

Active Ingredient: Aluminum Chlorohydrate

Inactive Ingredients: Water, Glyceryl Stearate, PEG-100 Stearate, Isopropyl Myristate, Cyclomethicone, Petrolatum, Glycerin, Octyl Palmitate, PEG-5 Soya Sterol, Magnesium Aluminum Silicate, Isopropyl Lanolate, Dimethyl Sebacate, Allantoin, Lanolin Alcohol, Cetyl Alcohol, Fragrance

New Concept Dentifrice

A safe decay preventive dentifrice, especially for those who prefer to clean and brighten teeth without a lot of additives or artificial sweeteners. Its highly concentrated formula removes stains and leaves breath minty fresh.

For use with bee stings, toothpaste contain glycerine which dries out the venom. Toothpaste is an alkaline substance which neutralizes acidic venom.
