

Nutriferon

Description

NutriFeron

Every day our bodies are under attack by pathogens and dangerous microbes that infest our surroundings with an unseen, unfelt, yet undeniable health threat. Our body's built-in immune system protects us whenever possible, but it's under constant attack from poor nutrition, stress, pollution, and fatigue. THE SHAKLEE DIFFERENCE in NUTRIFERON is a powerful breakthrough in immune system science. It is a patented, clinically proven blend of immune strengthening plant extracts. For daily use, it increases the production of your body's natural interferon, a critical activator of the immune system and works at the cellular level

? Rapidly activates your immune system's defenses

? Mobilizes the immune system's "search-and-destroy" teams

? NutriFeron is the only immunity supplement formulated by the discoverer of natural interferon, after an exhaustive review of 200 natural compounds.

? Patented, clinically proven formula

? A natural way to keep your immune system finely tuned and on ready alert, taking the defenses you already have and making them even better.

? Available exclusively through Shaklee, NutriFeron is a powerfully effective supplement that has exceeded a stringent set of scientific tests for safety, purity, potency, and clinical tests for performance.

? Star-K kosher certified

In a recent laboratory study, NutriFeron has been shown to positively impact natural killer (NK) cells — more support for this powerful breakthrough in Immune System Science. Now more than ever is the time to take care of you. Every day your immune system has to

protect you from millions of microbes that inhabit your surroundings—microbes you may be breathing, eating, touching, or sharing. 8 Reasons to support your immune system with NutriFeron

1. Naturally Boosts Interferon Levels Scientists have identified interferon as being critical to healthy immune function. NutriFeron is the **ONLY DIETARY SUPPLEMENT IN THE U.S.** created by the immunologist who discovered interferon **THAT NATURALLY INCREASES THE PRODUCTION OF INTERFERON IN THE BODY.** *

2. Created by the Discoverer of Interferon Dr. Yasuhiko Kojima, the world-renowned immunologist who discovered interferon in 1954, dedicated 40 years of research to finding natural compounds that would provide a boost to interferon production. This patented botanical blend is found in NutriFeron. NutriFeron from Shaklee is the **ONLY IMMUNITY SUPPLEMENT IN THE U.S. CREATED BY THE DISCOVERER OF INTERFERON.***Star Achievers

Years of Research

After 40 years of painstaking research testing hundreds of natural compounds and herbs, Dr. Kojima developed a **UNIQUE BLEND OF FOUR POWERFUL PLANT EXTRACTS** that boosts the body's natural production of interferon.*

4. Patented Blend of Interferon-Boosting Plant Extracts NutriFeron boasts the **MACH®** patented blend of interferon-boosting plant extracts, **AN EXCLUSIVE FORMULA** that includes pumpkinseed extract, safflower flower extract, Asian Plantain seed extract, and Japanese Honeysuckle flower extract. Each serving provides 500 mg of immunity-bolstering ingredients.*

5. Supported by Four Human Clinical Studies** Four published clinical studies confirm the extraordinary health and immune-supporting benefits of the proprietary blend of plant extracts found in NutriFeron. This potent-yet-safe phytonutrient blend provides immune support right at the cellular level. *

6. Exclusive Formula Protected by 3 Patents NutriFeron is supported by **THREE** patents and is available only through Shaklee Independent Distributors. This unique, patented formula is a Shaklee exclusive.

7. Made to the Highest Quality Standards A powerfully effective supplement, NutriFeron

has been subjected to a stringent set of scientific tests for safety, purity, potency, and performance. 8. Springtime Blooms Tear You Up? Preliminary studies suggest that NutriFeron balances your immune response against environmental irritants and airborne pollutants Shaklee takes pride in making products that are naturally safe—AND proven effective. To prove it, every Shaklee product is backed by an unconditional, 100% money-back guarantee. What Does Interferon Do?

Interferon serves two important functions:*

? To signal surrounding cells to trigger their response mechanisms.

? To activate immune cells to respond. Interferon is essential to the immune system and helps protect us from the daily exposure to millions of potential invaders that we confront each day. Who Should Use NutriFeron?

? Anyone over 12 years of age with busy, stressful lifestyles who wants to unleash their immune system*

? Those who want to balance their immune response to environmental irritants and airborne pollutants The recommended serving of NutriFeron is two caplets daily. If pregnant or nursing, please ask a health care professional. Keep in mind that...

- Preliminary laboratory studies suggest that in as little as three days, NutriFeron can unleash the full potential of the immune system.
