

NutriFeron Testimonies are Pouring In!

- **I used to have SOOOO many Colds!** *"I had always been susceptible to colds and when I got a cold it would be at least two weeks long. Previous to knowing about Shaklee, I had been on a lot of antibiotics, had my tonsils removed & stopped drinking milk. The latter two did help, but I was still getting 3 - 5 colds a season & couldn't remember the last time I wasn't sick at Christmas time. After starting NutriFeron, I can't believe how my health has improved. I was not ill the entire year. I have 2 young children so when they would catch a cold, I might feel a scratchy throat, but it never developed into anything."* Vicki
- **I am a teacher, and always around sick kids!** *"Since I am a teacher and always in the classroom around kids, I get exposed to so much sickness. I used to get sick so often, and I was always missing so much school and having a substitute teacher take my place. I love being a teacher, and I hated the fact that my students had so many disruptions of routine in their classroom. When a friend introduced me to NutriFeron, it really changed my life. I rarely get sick now, and if I do, I can usually overcome it very quickly. I never want to be without NutriFeron."* Jane
- **NutriFeron helps Son with Asthma!** *"My son started taking NutriFeron around the middle of the winter. He usually had terrible allergies in the spring which would trigger his asthma. This had happened for the last 7 or so years. I had him on many Shaklee products, but didn't think to put him on the NutriFeron until I had read an email about it really helping kids with asthma. Well, spring came and he did not have to use any of his preventive medicine for the allergy season. We continue to see great results with his asthma ever since he has been on the NutriFeron. What a GREAT product!"* Tammy
- **NutriFeron & Shingles:** *"This past week I had to go to the doctor with a rash on my back. I did not think much of it, but it started itching and hurting. It was the start of shingles. Right away the doctor told me that he would prescribe some steroids for it. I informed him that in no way was I going to take them. He said there was no other way to get rid of shingles and that I would be back in to see him in a couple of days if I did not take them. I went home and started reading my nutrition books on shingles. My friend gave me a bottle of Shaklee NutriFeron, so I doubled the dose, and also doubled the daily maintenance recommendation for several supplements including: B Complex, Vitamin E, CarotoMax, Vita Lea, and Soy Protein. By Saturday the rash was gone and the itching and hurting was also gone."* Betty

GARLIC is Both a FOOD and a NATURAL DRUG ... it has a history of over 2000 years of continual success!

- Egyptian hieroglyphics record that garlic was given to the workers who built the pyramids to keep them healthy and strong.
- In the Bible (Numbers 11:5) the Israelites bewailed the garlic left behind in Egypt when they fled to the wilderness with Moses.
- Roman centurions ate garlic to keep disease at bay.
- Hippocrates recommended garlic for infections, wounds, & digestive disorders.
- Garlic was used to reduce/prevent the plague in the Middle Ages.
- During World War II, garlic was used to prevent gangrene when penicillin & sulfa drug supplies ran out.
- Russia calls garlic "Nature's Penicillin". During a massive influenza epidemic in Moscow in 1965, an emergency airlift of 500 metric tons of garlic was brought in ... the influenza epidemic was stopped cold.
- In Europe, garlic is often used by professionals for respiratory problems where antibiotics would be prescribed in North America.

SHAKLEE GARLIC is an excellent supplement ... and a SAFE supplement to use daily to reduce the risk of sickness.

SHAKLEE GARLIC is ...

- pure natural garlic
- pesticide-free / herbicide-free
- cool-dried process ... and naturally odor-controlled
